INDEPENDENT AUDITOR'S REPORT

To the Commissioners
Hillsboro Inlet District
Hillsboro Beach, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and major fund of Hillsboro Inlet District (the "District") as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and major fund of the District, as of September 30, 2017, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 5, the Florida Retirement System's consulting actuary noted that the reduced investment return assumption adopted by the Florida Retirement System Actuarial Assumption Conference conflicts with the actuary's judgment of a reasonable assumption as defined by Actuarial Standard of Practice No. 27. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 6, the schedules related to the pension plan on pages 27 through 32, the schedule of revenues, budget and actual - general fund on page 33 and the schedule of operational and administrative expenditures, budget and actual - general fund on page 34 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 13, 2018, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

KEEFE McCULLOUGH

Fort Lauderdale, Florida

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of Hillsboro Inlet District's (the "District") financial performance provides an overview of the District's financial activities for the year ended September 30, 2017. Please read it in conjunction with the District's basic financial statements, which immediately follow this discussion.

Financial Highlights

The following are the highlights of financial activity for the year ended September 30, 2017:

- The District's total assets exceeded its liabilities at September 30, 2017 by \$ 3,708,519 of which \$ 1,611,447 is unrestricted. This is an overall increase of \$ 2,119.
- The District's total revenues were \$ 1,258,219, which is comprised of \$ 1,248,401 from ad valorem taxes and \$ 9,818 from interest and other revenues. The District's expenses for the year were \$ 1,256,100.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to financial statements. This report also contains other required supplementary information in addition to the basic financial statements themselves.

Government-Wide Basic Financial Statements: The government-wide basic financial statements, which consist of the following two statements, are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private sector business.

The statement of net position presents information on all the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the year. All changes in net position are reported as soon as the underlying events giving rise to the changes occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Fund Financial Statements: A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District has only one fund type: governmental funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide basic financial statements. However, unlike the government-wide basic financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the year. Such information may be useful in evaluating a government's near-term financing requirements.

**Hillsboro Inlet District
Management's Discussion and Analysis
September 30, 2017**

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide basic financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheets and the statements of revenues, expenditures, and changes in fund balances have only one reconciling item to consider in order to agree them to the government-wide statements of net position and activities, respectively.

Notes to Basic Financial Statements: The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of financial position. The following table reflects the condensed government-wide statement of net position as of September 30, 2017 and 2016:

Hillsboro Inlet District Statements of Net Position		
	2017	2016
Current and other assets	\$ 2,134,816	\$ 1,908,035
Capital assets	2,097,072	2,217,642
Deferred outflows	193,636	241,723
Total assets and deferred outflows	4,425,524	4,367,400
Current liabilities	224,676	54,091
Noncurrent liabilities	452,356	543,257
Deferred inflows	39,973	63,652
Total liabilities and deferred inflows	717,005	661,000
Net position:		
Net investment in capital assets	2,097,072	2,217,642
Unrestricted *	1,611,447	1,488,758
Total net position	\$ 3,708,519	\$ 3,706,400

* The 2016 balance was adjusted as a result of the prior period adjustment discussed in Note 7.

**Hillsboro Inlet District
Management's Discussion and Analysis
September 30, 2017**

Governmental Activities: Governmental activities increased (decreased) the District's net position by \$ 2,119 and \$ (68,879) for 2017 and 2016 respectively, as reflected in the table below:

Hillsboro Inlet District Statements of Activities		
	2017	2016
Revenues:		
Taxes	\$ 1,248,401	\$ 1,142,484
Other revenues	9,818	8,383
Total general revenues	1,258,219	1,150,867
Expenses:		
Physical environment	1,122,093	1,077,148
General government	134,007	142,598
Total expenses	1,256,100	1,219,746
Change in net position	2,119	(68,879)
Net Position, beginning of year *	3,706,400	3,775,279
Net Position, end of year	\$ 3,708,519	\$ 3,706,400

* The 2016 balance was adjusted as a result of the prior period adjustment discussed in Note 7.

Analysis of the Governmental Fund

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the District's governmental fund is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a District's net resources available for spending at the end of the fiscal year. The General Fund comprises the total of the governmental fund.

The District's governmental fund reported an ending fund balance of \$ 2,066,521 an increase of \$ 173,402.

Capital Assets and Debt Administration

The District's capital assets, less accumulated depreciation, for its governmental activities, amounted to \$ 2,097,072. The small decrease from the prior year is due to the net of a larger provision for depreciation and no capital additions during the year. Additional information on the District's capital assets can be found in Note 4 to the financial statements.

As of September 30, 2017, the District had no debt outstanding.

General Fund Budgetary Highlights

Actual expenditures were lower than budgeted by approximately \$ 158,000. Actual revenues were approximately \$ 15,000 higher than budgeted in the current year.

Economic Factors and Next Year's Budget

Expenditures for the 2017-2018 budget year for the General Fund of the District are budgeted to be approximately \$ 1,336,000. This is approximately \$ 93,000 more than budgeted expenditures for the 2016-2017 budget year. Property tax values are expected to increase slightly in the up and coming year as real property values appear to be trending slightly upward.

Requests for Information

This financial report is designed to provide a general overview of Hillsboro Inlet District's finances for all those with an interest. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Hillsboro Inlet District, c/o Goren, Cherof, Doody & Ezrol, P.A., 3099 E. Commercial Boulevard, Suite 200, Fort Lauderdale, FL 33308.

Hillsboro Inlet District
Reconciliation of the Balance Sheet - Governmental Fund
To the Statement of Net Position
September 30, 2017

Total fund balance - governmental fund	\$ 2,066,521
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds:	
Capital assets	3,619,760
Less accumulated depreciation	(1,522,688)
Certain funds related to pension assets and liabilities are not reported in the governmental funds.	
Deferred outflows, relating to the net pension liability	193,636
Deferred inflows, relating to the net pension liability	(39,973)
Long-term liabilities are not due and payable in the current period and therefore are not due in the funds:	
Net pension liability	(452,356)
Compensated absences	<u>(156,381)</u>
Net position of governmental activities	\$ <u><u>3,708,519</u></u>

The accompanying notes to financial statements are an integral part of these statements.

**Hillsboro Inlet District
Statement of Revenues, Expenditures and
Change in Fund Balance - Governmental Fund
For the Year Ended September 30, 2017**

	General Fund
Revenues:	
Taxes	\$ 1,248,401
Investment and other income	<u>9,818</u>
Total revenues	<u>1,258,219</u>
 Expenditures:	
Current:	
Physical environment	950,810
General government	<u>134,007</u>
Total expenditures	<u>1,084,817</u>
Net change in fund balance	173,402
 Fund Balance, October 1, 2016	<u>1,893,119</u>
 Fund Balance, September 30, 2017	<u>\$ <u>2,066,521</u></u>

The accompanying notes to financial statements are an integral part of these statements.

**Hillsboro Inlet District
 Reconciliation of the Statement of Revenues,
 Expenditures and Change in Fund Balance -
 Governmental Fund to the Statement of Activities
 For the Year Ended September 30, 2017**

Net changes in fund balances - governmental fund \$ 173,402

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures; in the statement of activities, these costs are allocated over their estimated useful lives as provision for depreciation.

Expenditures for capital outlay	31,373
Current year provision for depreciation	(151,943)

Certain changes related to pension assets and liabilities are not reported in the net change in the governmental funds.

Change in deferred outflows	(48,087)
Change in deferred inflows	23,679

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Change in the net pension liability	(7,669)
Change in compensated absences payable	<u>(18,636)</u>

Change in net position of statement of activities \$ 2,119

The accompanying notes to financial statements are an integral part of these statements.

Note 1 - Organization and Operations

Hillsboro Inlet District (the "District") is an independent special tax district, consisting of defined portions of Broward County, Florida as created by Chapter 57-1183 Laws of Florida, Acts of 1957 by the Legislature of the State of Florida, as amended. This District is considered to have continuous existence unless otherwise unsettled by the Legislature, as provided by law. The District is governed by an eight-member Board of Commissioners, who are appointed by various other governmental entities in accordance with the enabling legislation, and serve at the discretion of those governmental entities. The District was created to establish, construct, operate and maintain such improvements, facilities and equipment as is necessary for by-passing sand, for the maintenance of navigation and drainage at Hillsboro Inlet, which is located in northern Broward County, Florida.

Note 2 - Summary of Significant Accounting Policies

The basic financial statements of the District have been prepared in conformity with generally accepted accounting principles as applied to governmental units. The District's more significant accounting policies are described below:

Reporting entity: In evaluating how to define the District, for basic financial reporting purposes, management has considered all potential component units. The basic, but not the only criterion, for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations and accountability for fiscal matters. The other criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities. Based upon the application of these criteria, the District has determined that there are no component units in determining the scope of the reporting entity for financial reporting purposes.

Financial statements - government-wide statements: The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major fund). Both the government-wide and fund basic financial statement categorize primary activities as either governmental or business type. All of the District's activities are classified as governmental activities.

In the government-wide statement of net position, the governmental activities column is presented on a consolidated basis, if applicable, and is reported on a full accrual, economic resource basis, which recognizes all noncurrent assets and receivables as well as all noncurrent debt and obligations, when and if applicable.

The government-wide statement of activities reports both the gross and net cost of each of the District's functions. The net costs, by function, are also supported by general revenues and other revenue. The statement of activities reduces gross expenses by related program revenues, operating and capital grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants.

Note 2 - Summary of Significant Accounting Policies (continued)

This government-wide focus is more on the ability to sustain the District as an entity and the change in the District's net position resulting from the current year's activities.

Financial statements - fund financial statements: The accounts of the District are organized on the fund basis. The operations of the only fund are accounted for with separate self-balancing accounts that comprise its assets, liabilities, equity, revenues and expenditures.

The General Fund is a major governmental fund employed in accounting for the financial activities of the District. It is a governmental fund type and is used to account for all the District's financial transactions.

Measurement focus, basis of accounting and basis of presentation: Measurement focus refers to what is being measured and basis of accounting refers to the point at which revenues and expenses/expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

Governmental activity in the government-wide financial statements is presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

The governmental fund financial statements are presented on the modified accrual basis of accounting under which revenue is recognized in the accounting period in which it becomes susceptible to accrual (i.e., when it becomes both measurable and available.) "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within sixty days of the end of the current year.

Investments: Investments are stated at estimated fair value, which is based on quoted market prices. Unrealized gains and losses in fair value are recognized. Certain money market investments are stated at amortized cost if they have a remaining maturity of one year or less when purchased.

Capital assets: Capital assets, which include land and improvements, buildings, improvements other than buildings, infrastructure, and machinery and equipment are reported in the governmental activities column in the government-wide financial statements. The government defines capital assets as assets with an initial, individual cost of more than \$ 750 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Capital assets are depreciated on the straight-line basis over the following estimated useful lives:

Machinery and equipment	5-30 years
Infrastructure	15-20 years
Improvements	20-30 years

Note 2 - Summary of Significant Accounting Policies (continued)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

The Government Accounting Standards Board ("GASB") Statement No. 34 encourages but does not require certain governments to retroactively report infrastructure assets. The District has elected not to retroactively report any unrecorded infrastructure that may exist.

Deferred outflows/inflows of resources:

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. At September 30, 2017, the District had deferred outflows of \$ 193,636, which is related to the net pension liability.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. At September 30, 2017, the District had deferred inflows of \$ 39,973, which is related to the net pension liability.

Net position:

Government-wide statements

Net Position is classified in three categories. The general meaning of each is as follows:

- a. Net investment in capital assets - consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.
- b. Restricted - consists of net position with constraints placed on the use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- c. Unrestricted – indicates that portion of net position that is available to fund future operations.

Fund statements:

The District previously adopted GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This statement requires that governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

Note 2 - Summary of Significant Accounting Policies (continued)

Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. "Not in spendable form" includes items that are not expected to be converted to cash (such as inventories and prepaid amounts) and items such as long-term amount of loans and notes receivable, as well as property acquired for resale. The corpus (or principal) of a permanent fund is an example of an amount that is legally or contractually required to be maintained intact. In fiscal year 2017, this represents \$ 54,173.

Restricted: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. In fiscal year 2017, the District had no restricted balances.

Committed: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the District's Board of Commissioners. These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. Resources accumulated pursuant to stabilization arrangements are reported in this category. In fiscal year 2017, the District had no committed balances.

Assigned: This classification includes amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Commission through the Commission delegating this responsibility to the Commissioner. In fiscal year 2017, this represents \$ 1,600,000.

Unassigned: This classification includes the residual fund balance for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed or assigned for those specific purposes. In fiscal year 2017, this represents \$ 412,348.

The District would typically use restricted fund balances first, followed by committed fund balances, and then assigned fund balances.

Budgets and budgetary accounting: The District is required by state law to adopt an annual budget for the General Fund. The basis of accounting used to prepare the budget is not materially different from the modified accrual basis of accounting.

The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

Note 2 - Summary of Significant Accounting Policies (continued)

1. Prior to September 30 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning October 1. The operating budget includes proposed expenditures and the means of financing them.
2. The budget is filed with the Broward County Property Appraiser's office, opened for inspection by the public, and a public hearing is held pursuant to a notice published in a newspaper circulated in Broward County.
3. A meeting of the Board of Commissioners is then called for the purpose of adopting the proposed budget.
4. Prior to October 1, the budget is legally enacted through passage of a resolution by the Board of Commissioners.

The level of control, the level at which expenditures may not exceed the budget, is at the total fund level. The District may transfer budgeted amounts within and among accounts and departments.

Encumbrances: The District does not utilize encumbrance accounting.

Property taxes: Real and personal property values are assessed on a county-wide basis by the Broward County Property Appraiser as of January 1 each year. Taxable value of property within the District is certified by the Property Appraiser on July 1. The District levies a property tax millage rate upon that taxable value to provide revenue required for the fiscal year beginning October 1. The amount of tax levied by the District shall not exceed one half of one mill on the assessed valuation of such real property.

Property taxes levied by the District, and all other tax authorities within the County, are centrally billed and collected by Broward County, with monthly remittance to the District for collected amounts. Taxes for the fiscal year beginning October 1 are billed in the month of November, subject to a 1% per month decreasing discount for the period November through February, and are due no later than March 31. On April 1, unpaid amounts become delinquent with interest and penalties added thereafter. Beginning June 1, tax certificates representing delinquent amounts are sold by Broward County, with remittance to the District for its share of those receipts.

Compensated absences: Permanent full-time employees working at least 40 hours per week accrue annual leave based on the employee's years of service as follows:

<u>Years of service</u>	<u>% of hours worked</u>
Less than 5	4%
5 to 10	6%
Greater than 10	8%

Non full-time employees, working at least twenty hours per week, earn annual leave at a rate of 0.04 days per month. Employees working less than 20 hours per week do not accrue annual or sick leave.

Annual leave can be carried over to the following year up to a maximum of 280 hours (35 days) per employee. Any hours in excess of the maximum will either be cashed out or transferred to the employee's sick leave account.

Note 2 - Summary of Significant Accounting Policies (continued)

Sick leave is accrued for all employees and earned at a rate of 4.62% of the number of hours worked per week, regardless of their time in service. An employee may accrue sick leave up to a maximum of 1,040 hours (130 days). Accrued sick leave in excess of 940 hours may be cashed out at the end of the calendar year.

An employee who resigns or is terminated is entitled to payment of all days of accumulated annual leave. The District accrues for annual and sick leave based on anticipated use or payout. Expenditures are recorded in the Government-wide financial statements as labor expenditures are incurred. Accumulated and unpaid annual and sick leave are recorded as accrued expenses in the liability section of the Statement of Net Position. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources and only if they have matured.

Date of management review

Subsequent events have been evaluated by management through February 13, 2018, which is the date the financial statements were available for issuance.

Note 3 - Deposits and Investments

Deposits: The District's deposits must be placed with banks and savings and loans which are qualified as public depositories prior to receipt of public monies under Chapter 280, Florida Statutes. These deposits are insured by the FDIC up to \$ 250,000. Monies deposited in amounts greater than the insurance coverage are secured by the banks pledging securities with the State Treasurer in the collateral pool. At year end, the carrying amount and the bank balance of the District's deposits were \$ 1,993,250 and \$ 1,993,600, respectively.

Investments: As required by Florida Statutes, the District has adopted an investment policy designating the investments which are allowable. The authorized investments include direct obligations of the United States Treasury, its Agencies or Instrumentalities, fully insured or collateralized certificates of deposit, Securities and Exchange Commission ("SEC") registered money market funds, repurchase agreements secured by direct obligations of the United States Government, its Agencies or instrumentalities, and the Local Government Surplus Funds Trust Fund. The investments follow the investment rules defined in Florida Statutes Chapter 215. The investment policy defined in the statutes attempts to promote, through state assistance, the maximization of net interest earnings on invested surplus funds of local units of governments while limiting the risk to which the funds are exposed.

The District invests surplus funds in an external investment pool, the Local Government Surplus Funds Trust Fund ("Florida PRIME"). Florida PRIME is administered by the Florida State Board of Administration ("SBA"), who provides regulatory oversight. The Florida PRIME has adopted operating procedures consistent with the requirement for a 2a7-like fund. The District's investment in the Florida PRIME is reported at amortized cost. The fair value of the position in the pool is equal to the value of the pool shares. The Florida PRIME investment is exempt from GASB Statement No. 72, *Fair Value Measurement and Application* disclosure. As of September 30, 2017, the District's fair value of its investment in Florida PRIME was \$ 87,393.

Note 3 - Deposits and Investments (continued)

Interest rate risk: Florida Statutes state that the investment portfolio be structured in such a manner as to provide sufficient liquidity to pay obligations as they come due. The dollar weighted average days to maturity and weighted average life of the securities held in Florida PRIME is 51 days and 80 days, respectively.

Credit risk: The District’s investment policy limits investments to the safest types of issuers. The Florida PRIME is rated AAAM by Standards and Poor’s.

Note 4 - Capital Assets

Capital assets activity for the year ended September 30, 2017 was as follows:

	Balance at October 1, 2016	Additions	Deletions	Balance at September 30, 2017
Capital assets, depreciable:				
Machinery and equipment	\$ 3,358,295	\$ 31,373	\$ 87,527	\$ 3,302,141
Infrastructure	8,937	-	-	8,937
Improvements	<u>308,682</u>	<u>-</u>	<u>-</u>	<u>308,682</u>
Total capital assets, depreciable	<u>3,675,914</u>	<u>31,373</u>	<u>87,527</u>	<u>3,619,760</u>
Less accumulated depreciation for:				
Machinery and equipment	1,402,192	130,103	87,527	1,444,768
Infrastructure	8,800	133	-	8,933
Improvements	<u>47,280</u>	<u>21,707</u>	<u>-</u>	<u>68,987</u>
Total accumulated depreciation	<u>1,458,272</u>	<u>151,943</u>	<u>87,527</u>	<u>1,522,688</u>
Net capital assets	\$ <u>2,217,642</u>	\$ <u>(120,570)</u>	\$ <u>-</u>	\$ <u>2,097,072</u>

The provision for depreciation for the year ended September 30, 2017 amounted to \$ 151,943. The District allocated 100% of the depreciation to physical environment.

Note 5 - Florida Retirement System

As provided by Chapters 121 and 112, Florida Statutes, the Florida Retirement System (“FRS”) provides two cost sharing, multiple employer defined benefit plans administered by the Florida Department of Management Services, Division of Retirement, including the FRS Pension Plan (“Pension Plan”) and the Retiree Health Insurance Subsidy (“HIS Plan”). As a general rule, membership in the FRS is compulsory for all employees working in a regularly established position for a state agency, county government, district school board, state university, community college, or a participating city or special district within the State of Florida. The FRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefits are established by Chapter 121, Florida Statutes, and Chapter 60S, Florida Administrative Code. Amendments to the law can be made only by an act of the Florida State Legislature.

Note 5 - Florida Retirement System (continued)

The State of Florida annually issues a publicly available financial report that includes financial statements and required supplementary information for the FRS. The latest available report may be obtained by writing to the State of Florida Division of Retirement, Department of Management Services, P.O. Box 9000, Tallahassee, Florida 32315-9000, or from the Web site: www.dms.myflorida.com/workforce_operations/retirement/publications.

Pension Plan:

Plan Description - The Pension Plan is a cost-sharing multiple-employer defined benefit pension plan, with a Deferred Retirement Option Program ("DROP") for eligible employees.

Benefits Provided - Benefits under the Pension Plan are computed on the basis of age, average final compensation, and service credit. For Pension Plan members enrolled before July 1, 2011, Regular class members who retire at or after age 62 with at least six years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 1.6% of their final average compensation based on the five highest years of salary, for each year of credited service. Vested members with less than 30 years of service may retire before age 62 and receive reduced retirement benefits. Special Risk Administrative Support class members who retire at or after age 55 with at least six years of credited service or 25 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 1.6% of their final average compensation based on the five highest years of salary, for each year of credited service. Special Risk class members (sworn law enforcement officers, firefighters, and correctional officers) who retire at or after age 55 with at least six years of credited service, or with 25 years of service regardless of age, are entitled to a retirement benefit payable monthly for life, equal to 3.0% of their final average compensation based on the five highest years of salary for each year of credited service. Senior Management Service class members who retire at or after age 62 with at least six years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 2.0% of their final average compensation based on the five highest years of salary for each year of credited service. Elected Officers' class members who retire at or after age 62 with at least six years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 3.0% (3.33% for judges and justices) of their final average compensation based on the five highest years of salary for each year of credited service.

For Plan members enrolled on or after July 1, 2011, the vesting requirement is extended to eight years of credited service for all these members and increasing normal retirement to age 65 or 33 years of service regardless of age for Regular, Senior Management Service, and Elected Officers' class members, and to age 60 or 30 years of service regardless of age for Special Risk and Special Risk Administrative Support class members. Also, the final average compensation for all these members will be based on the eight highest years of salary.

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the Pension Plan before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is three percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of three percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by three percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

In addition to the above benefits, the DROP program allows eligible members to defer receipt of monthly retirement benefit payments while continuing employment with a FRS employer for a period not to exceed 60 months after electing to participate. Deferred monthly benefits are held in the FRS Trust Fund and accrue interest. There are no required contributions by DROP participants.

Note 5 - Florida Retirement System (continued)

Contributions - Effective July 1, 2011, all enrolled members of the FRS, other than DROP participants, are required to contribute three percent of their salary to the FRS. In addition to member contributions, governmental employers are required to make contributions to the FRS based on state-wide contribution rates established by the Florida Legislature. These rates are updated as of July 1 of each year. The employer contribution rates by job class for the periods from October 1, 2016 through June 30, 2017 and from July 1, 2017 through September 30, 2017, respectively, were as follows: Regular - 7.52% and 7.92%; Special Risk Administrative Support - 28.06% and 34.63%; Special Risk - 22.57% and 23.27%; Senior Management Service - 21.77% and 22.71%; Elected Officers' - 42.47% and 45.50%; and DROP participants - 12.99% and 13.26%. These employer contribution rates include 1.66% HIS Plan subsidy for both the periods October 1, 2016 through June 30, 2017 and from July 1, 2017 through September 30, 2017.

The District's contributions, including employee contributions, to the Pension Plan totaled \$ 28,967 for the fiscal year ended September 30, 2017.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At September 30, 2017, the District reported a liability of \$ 322,581 for its proportionate share of the Pension Plan's net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016. The District's proportion of the net pension liability was based on a projection of the District's 2016-17 fiscal year contributions relative to the 2015-16 fiscal year contributions of all participating members. At June 30, 2017, the District's proportion was .001090562 percent, which was a decrease of .000060488 from its proportion measured as of June 30, 2016.

For the year ended September 30, 2017, the District recognized pension expense of \$ 57,968. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 29,605	\$ (1,787)
Changes of assumptions	108,410	-
Net difference between projected and actual earnings on pension plan investments	-	(7,995)
Changes in proportion and differences between District contributions and proportionate share of contributions	20,523	(7,909)
District contributions subsequent to the measurement date	<u>7,425</u>	<u>-</u>
Total	<u>\$ 165,963</u>	<u>(17,691)</u>

Deferred outflows of resources related to District contributions paid subsequent to the measurement date and prior to the employer's fiscal year end will be recognized as a reduction of the net pension liability in the subsequent reporting period ending September 30, 2018. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Note 5 - Florida Retirement System (continued)

<u>Year Ended September 30:</u>	<u>Amount</u>
2018	\$ 20,978
2019	\$ 48,728
2020	\$ 34,980
2021	\$ 7,859
2022	\$ 20,837
Thereafter	\$ 7,466

Actuarial Assumptions - The total pension liability in the July 1, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60%
Salary increases	3.25%, average, including inflation
Investment rate of return	7.10%, net of pension plan investment expense, including inflation

Mortality rates were based on the Generational RP-2000 with Projection Scale BB tables.

The actuarial assumptions used in the July 1, 2016, valuation were based on the results of an actuarial experience study for the period July 1, 2008 through June 30, 2013.

The FRS Actuarial Assumption Conference is responsible for setting the assumptions used in the valuations of the defined benefit pension plans pursuant to section 216.136(10), Florida Statutes. During presentations to the 2016 FRS Actuarial Assumption Conference, Aon Hewitt, the investment consultant for the State Board of Administration, and the consulting actuary both recommended reducing the investment return assumption. Based on their respective capital market outlook models, the 50th percentile average annual long-term future return rates ranged between 6.3 percent and 6.6 percent. When Aon Hewitt applied the State Board of Administration’s approach to assumption development, the investment return forecast was 7.0 percent. The consulting actuary notes the reduced investment return assumption adopted by the FRS Actuarial Assumption Conference conflicts with their judgment of a reasonable assumption as defined by the Actuarial Standards of Practice Number 27 (ASOP 27).

The long-term expected rate of return on Pension Plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy’s description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Note 5 - Florida Retirement System (continued)

<u>Asset Class</u>	<u>Target Allocation (1)</u>	<u>Annual Arithmetic Return</u>	<u>Compound Annual (Geometric) Return</u>	<u>Standard Deviation</u>
Cash	1.00%	3.00%	3.00%	1.70%
Fixed income	18.00%	4.50%	4.40%	4.20%
Global equity	53.00%	7.80%	6.60%	17.00%
Real estate	10.00%	6.60%	5.90%	12.80%
Private equity	6.00%	11.50%	7.80%	30.00%
Strategic investments	12.00%	6.10%	5.60%	9.70%
Total	<u>100%</u>			
Assumed Inflation - Mean		2.60%		1.90%

(1) As outlined in the Pension Plan's investment policy

Discount Rate – The discount rate used to measure the total pension liability was 7.10%. The pension Plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculation of the total pension liability is equal to the long-term expected rate of return.

Sensitivity of the District’s proportion share of the net pension liability to changes in the discount rate - The following presents the District’s proportionate share of the net pension liability calculated using the discount rate of 7.10 percent, as well as what the District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

	<u>1% Decrease (6.10%)</u>	<u>Current Discount Rate (7.10%)</u>	<u>1% Increase (8.10%)</u>
District's proportionate share of the net pension liability	\$ 583,852	\$ 322,581	\$ 105,666

Pension Plan Fiduciary Net Position - Detailed information regarding the Pension Plan’s fiduciary net position is available in the separately issued FRS Pension Plan and Other State-Administered Systems Comprehensive Annual Financial Report.

HIS Plan:

Plan Description - The HIS Plan is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

Note 5 - Florida Retirement System (Continued)

Benefits Provided - For the fiscal year ended September 30, 2017, eligible retirees and beneficiaries received a monthly HIS payment of \$ 5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$ 30 and a maximum HIS payment of \$ 150 per month. To be eligible to receive these benefits, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

Contributions - The HIS Plan is funded by required contributions from FRS participating employers asset by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended September 30, 2017, the HIS contribution for the period October 1, 2016 through June 30, 2017 and from July 1, 2017 through September 30, 2017 was 1.66% for both periods. The District contributed 100% of its statutorily required contributions for the current and preceding three years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or cancelled.

The District’s contributions to the HIS Plan totaled \$ 6,476 for the fiscal year ended September 30, 2017.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At September 30, 2017, the District reported a liability of \$ 129,775 for its proportionate share of the HIS Plan’s net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016. The District’s proportionate share of the net pension liability was based on the District’s 2016-17 fiscal year contributions relative to the 2015-16 fiscal year contributions of all participating members. At June 30, 2017, the District’s proportionate share was .001213710 percent, which was a decrease of .000108054 percent from its proportionate share measured as of June 30, 2016.

For the fiscal year ended September 30, 2017, the District recognized pension expense of \$ 9,553. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Changes of assumptions	\$ 18,242	\$ (11,222)
Net difference between projected and actual earnings on pension plan investments	72	-
Differences between expected and actual experience	-	(270)
Changes in proportion and differences between District contributions and proportionate share of contributions	7,758	(10,790)
District contributions subsequent to the measurement date	<u>1,601</u>	<u>-</u>
Total	<u>\$ 27,673</u>	<u>\$ (22,282)</u>

Note 5 - Florida Retirement System (Continued)

Deferred outflows of resources related to District contributions paid subsequent to the measurement date and prior to the employer’s fiscal year end will be recognized as a reduction of the net pension liability in the subsequent reporting period ending September 30, 2018. Amounts reported as deferred outflows of resources and deferred inflows of resources related to the HIS Plan will be recognized in pension expense as follows:

<u>Year Ended September 30:</u>	<u>Amount</u>
2018	\$ 1,809
2019	\$ 1,795
2020	\$ 1,789
2021	\$ 1,144
2022	\$ 471
Thereafter	\$ (3,218)

Actuarial Assumptions - The total pension liability in the July 1, 2016, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60%
Salary increases	3.25%, average, including inflation
Municipal bond index	3.58%

Mortality rates were based on the Generational RP-2000 with Projection Scale BB tables.

The actuarial assumptions used in the July 1, 2016, valuation were based on the results of an actuarial experience study for the period July 1, 2008 through June 30, 2013.

Discount Rate - The discount rate used to measure the total pension liability was 3.58%. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

Sensitivity of the District’s Proportionate Share of the Net Position Liability to Changes in the Discount Rate - The following represents the District’s proportionate share of the net pension liability calculated using the discount rate of 3.58%, as well as what the District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (2.58%) or one percentage point higher (4.58%) than the current rate:

	<u>1% Decrease (2.58%)</u>	<u>Current Discount Rate (3.58%)</u>	<u>1% Increase (4.58%)</u>
District's proportionate share of the net pension liability	\$ 148,091	\$ 129,775	\$ 114,520

Note 5 - Florida Retirement System (continued)

Pension Plan Fiduciary Net Position – Detailed information regarding the HIS Plan’s fiduciary net position is available in the separately issued FRS Pension Plan and Other State-Administered Systems Comprehensive Annual Financial Report.

Note 6 - Risk Management

The District places all insurance risk, less normal deductibles, in the hands of commercial carriers.

Note 7 - Restatement of Net Position

Net position as of September 30, 2016 was reduced due to changes in the policies for compensated absences. This required the District to accrue an additional \$ 98,570 as of September 30, 2016. As a result of this adjustment, net position was reduced from the amount that was previously reported, which was \$ 3,804,970 to \$ 3,706,400.

COMPLIANCE SECTION

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Commissioners
Hillsboro Inlet District
Hillsboro Beach, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and general fund of Hillsboro Inlet District (the "District"), as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated February 13, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT TO DISTRICT MANAGEMENT

To the Commissioners
Hillsboro Inlet District
Hillsboro Beach, Florida

Report on the Financial Statements

We have audited the financial statements of Hillsboro Inlet District ("the District"), as of and for the fiscal year ended September 30, 2017, and have issued our report thereon dated February 13, 2018.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with Government Auditing Standards and Independent Auditor's Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated February 13, 2018, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no findings and recommendations made in the preceding annual financial audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The name or official title and legal authority of the District is disclosed in the notes to the financial statements. The District has no component units.

Financial Condition and Management

Sections 10.554(1)(i)5.a and 10.556(7), Rules of the Auditor General, requires that we apply appropriate procedures and communicate the results of our determination as to whether or not Hillsboro Inlet District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the Hillsboro Inlet District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)(5).c. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate in the management letter any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Annual Financial Report

Sections 10.554(1)(i)5.b and 10.556(7), Rules of the Auditor General, requires that we apply appropriate procedures and communicate the results of our determination as to whether the annual financial report for Hillsboro Inlet District for the fiscal year ended September 30, 2017, filed with the Florida Department of Financial Services pursuant to Section 218.32(1)(a), Florida Statutes, is in agreement with the annual financial audit report for the fiscal year ended September 30, 2017. In connection with our audit, we determined that these two reports were in agreement.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires that we communicate noncompliance with provisions of contract or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of This Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH
SECTION 218.415, FLORIDA STATUTES

To the Commissioners
Hillsboro Inlet District
Hillsboro Beach, Florida

We have examined the Hillsboro Inlet District's (the "District") compliance with the requirements of Section 218.415, Florida Statutes, *Local Government Investment Policies*, during the year ended September 30, 2017. Management is responsible for the District's compliance with those requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the District's compliance with specified requirements.

In our opinion, the District complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2017.

This report is intended solely for the information and use of Members of the District Commission, management, and the State of Florida Auditor General and is not intended to be and should not be used by anyone other than these specified parties.
